Naderer Brandsimulation je jedan od vodećih proizvođača mobilne gasne opreme za obuku u simulaciji požara. Više od petnaest godina iskustva, stalno unapređivanje i integracija novih tehnologija dovode do novih, inovativnih proizvoda. Oni obuhvataju širok spektar scenarija obuke za požar i gašenje požara.

Veoma kvalitetni materijali, najnovije komponente i inovativan tim garantuju proizvode vrhunskog kvaliteta. Zbog modularnog projekta naših kadrova za protivpožarnu obuku, oni se mogu prilagoditi potrebama kupca. Naši simulatori požara su ekološki, a pokreće ih propan gas.

Naš iskusni tim se sastoji od vatrogasaca i tehničara i vodimo računa o uslugama svojim kupcima i podržavamo zahteve sve vreme trajanja svojih proizvoda. Zato možemo da garantujemo visok kvalitet prema industrijskim standardima. Proizvodi su proizvedeni i testirani prema smernicama za visok i strog kvalitet.

Naderer Brandsimulation is one of the leading producers of mobile, gas fired training equipment for fire simulation.

More than fifteen years of experience, continuous improvement and integration of new technologies lead to new, innovative products. These cover a wide range of fire and firefighting training scenarios.

High quality materials, state of the art components and an innovative team guarantee top quality products.

Because of the modular design of our fire trainers, they can easily be adapted to the customer's need. Our fire simulators are environmental friendly fired with propane gas.

Our experienced team consists of fire fighters and technicians and we take care of our customer's service and support requirements throughout the complete life span of our products. Therefore we can guarantee a high industrial quality standard. The products are manufactured and tested to high and strict quality guidelines.
