Rafting savez Srbije osnovan je 2006. godine i od tada je organizovao 10 evro kupova i 1 svetsko prvenstvo u Prijepolju. Savez broji 18 klubova iz cele Srbije i svake godine dobijamo molbe za prijave novih i njihovu registraciju u Savezu. Bili smo učesnici većine svetskih i evropskih manifestacija kako u juniorskoj, seniorskoj tako i u veteranskoj kategoriji, a ne treba zaboraviti ni veoma uspešno učešće naših devojaka na nekim od tih takmičenja. U juniorskoj i seniorskoj konkurenciji nismo uspeli da se domognemo medalja na svetskim i evropskim manifestacijama. Ove godine u Slovačkoj naša seniorska ekipa domogla se četvrtog mesta i tako postigla najveći uspeh u muškoj konkurenciji. Uspešno pored Evropskih kupova svake godine u Nišu već tri godine za redom organizujemo i univerzitetsko prvenstvo, na kome se takmiče studenti iz cele Srbije, najviše ih je sa fakulteta fizičke kultura DIF-a iz Beograda. Svake godine takmičenja posećuju sve više učesnika iz celog okruženja zahvaljući angažovanju našeg predsednika Saveza Borisa Purjakova koji svojim nesebičnim naporima i svojim sopstvenim sredstvima pomaže koliko je god u njegovim mogućnostima. Treba pomenuti i nesebičnu pomoć svih članova i klubova iz Saveza tokom proteklih poplava širom Srbije koji su pomogli i spasili veliki broj naših građana na veoma nedostupnim mestima i na taj način pokazali svoju humanost i obučenosť da i u ovakvim prilikama rafteri najbolje mogu da reaguju. Ulažu se veliki napori da ovaj sport postane i jednog dana olimpijska disciplina sa nadom da će to i postati radićemo još više i napornije narednih godina koje su pred nama

Rafting Federation Serbia was founded in 2006 and since then has organized 10 Euro Cups and one World Championship in Prijepolje. Alliance consists of 18 teams from all over Serbia and every year we get requests for new applications and their registration in the Union. We were participants in most of the world and European events as a junior, senior and in the veteran category, and we should not forget the very successful participation of our girls in some of these competitions. In the junior and senior competition we didnt got to the medal in the European and world events. This year in Slovakia, our senior team got hold of the fourth and so achieve the greatest success in the men's competition. Successful addition to the European Cup every year in Nis for three years in a row organize and university championships, in which the competing students from all over Serbia, most of them

from the faculty of physical culture DIF from Belgrade. Each year the competition attracts more participants from all environments thanks to the engagement of our President of the Federation Boris Purjakov whose selfless efforts and their own funds helps as far as his opportunities. Should mention the generous help of all the members and clubs from the Union during the past floods throughout Serbia who helped and saved many of our citizens in a very inaccessible places, and this showed their humanity and training that in these circumstances the rafters can best respond. Effort is made to this sport and one day become an Olympic event with the hope that it will work and become more and work harder next year to come.
