Firma Vertec Solutions DOO iz Beograda je počela sa radom u oktobru 2012. i od tada se kreće uzlaznom putanjom u segmentu zelenih rešenja za industrije (automobilske, građevinske, prehrambene i druge) i sve delatnosti gde je imperativ visok standard zaštite na radu i očuvanja životne sredine, kao i, sve neophodnije – usklađivanja sa standardima EU.

Pored ekskluzivnog uvoza i distribucije opreme vodećih svetskih proizvođača (Nederman, Josam, Chicago Pneumatic, Teseo i drugi) jedini u Srbiji nudimo projektna rešenja po sistemu „ključ u ruke“ za servise, radionice, industrijska postrojenja i druge objekte.

Zahvaljujući višegodišnjem iskustvu našeg tima u oblasti projektovanja, izvođenja i vrhunske post-prodajne podrške, Vertec Solutions može se pohvaliti velikim brojem zadovoljnih klijenata i bogatom listom referenci.

Vertec Solutions DOO Belgrade has started its activities in October 2012. and has been growing since in the segment of green solutions for industries (auto, construction, food and other) and all other businesses where high standard of work and environment protection is required and, more and more necessary – EU standards adjustments.

Our focus is on dust and fume extraction systems as well as centralized compressed air, oil and other fluids distribution systems.

Besides exclusive import and distribution of the premium equipment (brands such as Nederman, Josam, Chicago Pneumatic, Teseo and others), we are the only ones in Serbia offering full project solutions for services, workshops, industrial lines and other objects.

Thanks to our staff's rich experience in project management and top of the line after sale service, Vertec Solutions has already built a community of satisfied clients and a rich reference list.
